### Product description

Felina **519** is an underwired bra from the **Moments** collection. The manufacturer offers it to its customers in another beautiful colour, this time in shades of red and pink. The colour barberry red is a romantic and feminine proposal for the Moments 519 bra decorated with a floral pattern in the form of embroidery. The unique cup cut has been winning the hearts of Felina admirers for years, who appreciate it for its comfort and excellent breast support at the same time. The wider straps will especially appeal to owners of larger and fuller breasts - they provide comfort and do not pinch into the shoulders. Soft material is very kind to the skin, and flat lace does not stand out under outer clothes. The perfect set is the 519 bra in barberry red with the 1319 high-waisted briefs.
